Granger and Industrial Shares More Active and Higher at New York.

The Market Influenced by Hopeful Accounts of the Corn Crop-Receipts of Wheat at Indianapolis Unu uslly Large.

NEW YORK STOCK MARKET.

Better Reports from the Corn Belt Puts More Life in the Grangers and Industrials, Money on call at New York, yesterday, wasensy at 1/2 to 2 per cent., the last loan being made at 2 per cent., closing offered at

2 per cent. Prime mercantile paper, 3@5 per cent. Sterling exchange steady at \$4.87 for sixty-day bills and \$4.88 for demand.

Sales of stocks aggregated 138,298 shares, including the following: Atchison, 2,624; Chicago Gas, 6,277; Erie, 2,792; Hocking Valley, 2,700; Lake Shore, 3,155; Louisville & Nashville, 8,620; Missouri Pacific, 2,600; Northwestern, 2,525; Reading, 7.100; Richmond & West Point, 3,100; St. Paul, 13,686; Union Pacific, 4,500.

The more hopeful accounts received of the possibilities of the corn crop again brings the granger shares to the front of the market, and yesterday St. Paul and Burlington were leaders in activity at New York, though overshadowed by the industrials in the early dealings, and responses to the better feeling showed a slow but steady appreciation in values throughout the greater portion of the day. The confidence of the insiders was seen in the prommence of Reading in the market, and the studuoiness with which its price was main tained, and with the strength in the industrials, especially Sugar and Cordage, the features of yesterday's operations were exhausted, with the exception of the usual strength in the Vanderbilts, on very light right up to the end of the session, and the market therefore closed quiet but strong at the highest prices of the day. The trad-ing reached 107,584 listed and 30,174 unlisted shares. Railroad bonds were also more active and stronger, but while there was a better distribution of business, the active issues were changed but slightly from the previous sales. The sales extended to

Farm and Fireside. The Embden, a white goose (both male and female) is, with the Toulouse, the largest of all breeds. The best cross for the market is the Toulouse gander and the Embden goose. The Toulouse is particolored, and the male and female are alike. In fact, the male and female of any pure breed are slike in color. The large breeds do not forage over as much ground as the common kinds, but produce twice se much feathers in weight, and fatten more readily for market. An adult gander of the Embden or Toulouse breeds should not weigh less than twenty-five pounds, and the goose twenty-three pounds, though individuals have been known to reach as much as hi pounds. The best way to grade up a flock is to procure a gander of the Embden breed. mate him with large common geese, and mate the female offspring with a Toulouse. The males should then be pure-bred Embdens, as they are pure white, which is an advantage where the feathers are consid-

ered a valuable product. Only \$3,75 to Chicago

CHICAGO MARKETS FIRMER

Speculation Was Limited, However, by Fear of the Anti-Option Bill.

Wheat Advanced 3-4c Over Tuesday's Closing Price-Little Change of Consequence in Lither Corn, Oats or Provisions.

TRADING AT CHICAGO.

Wheat Nearly a Cent Higher-Other Cereals and Hog Products Nominally Unchanged. CHICAGO, July 20 .- The markets on the board were all characterized by firmness to-day, but speculation was limited by fear of the anti-option bill. Wheat closed 40 higher than yesterday, but corn and provisious were scarcely changed from yesterday's prices. Early prices affecting wheat were of a mixed character. Cables reported the Liverpool markets lower and trade dull, while Bristol cabled that new Russian wheat was freely offered there. The clearances were small. The winter wheat outlook still maintained its promising aspect, and the speculative business was at a low ebb, and, to set this off, reports were received from the Northwest saying rust was making its appearance in the wheat-fields of Minnesota and the Dakotas. This news, with good buying by Mitchell and Cudahy, seemed to be the strengthening points in the market, and the seiling was light, shorts got a little nervous and commenced to cover, giving the market a strong trend and holding it very well. Closing cables were a trifle firmer. Receipts here were 254 cars; in the Northwest, 249 cars. Bradstreets reported a decrease of 1,121,000 bushels in the stocks on both sides of the Rockies. September opened at 78c, sold at 78 sc, then at 77%c, up steadily to 7842c, reacted to 784c, and closed strong at 784c. July ranged from

Corn was steady and firm. There was some talk of dry weather in the corn-belt, which was retarding the development of the crop, while the strength in wheat and good buying by some prominent operators, with Sibley in the lead, gave the market a rather strong boost. September opened at 48%c, sold at 48%c, then went down to 48%c, but recovered to 48%c. The market weakened on free selling during the last hour, and after having sold at 48%c fell back to 48%c, closing at 48%c. Both the receipts for to-day and the estimates for to-morrow were moderate. Oats ruled quiet and steady. September

sold early at 304c, then 304c, off to 304c, improved some and closed at 304c. Hog products were quiet and inclined to weakness, but held fairly steady. September pork opened at \$12.0212, fell to \$11.20, back to \$12, and closed at \$12.024. September lard ranged at 7.1712 @ 7.27120, and closed at 7.27%c. September ribs, 7.55c, closing 7.55c bid. Markets closed strong on the belief that the chances of beating the anti-option bill in the Senate were improv-

Crawfordsville, Ind., Paducah and Livermore, Ky., and El Dorado, Ill.

Sealed proposals for the purchase of all said property as an entirety, or of any particular part or parcel se parately, will be received until Monday, Ang. 1, 1892, at 12 o'clock meridian, and at 3 o'clock. P. M., of said day, said property will be offered at public sale, first each plant or parcel separately, and then all of said property as an entirety, at the door of the court room of the Circuit Court of the United States for the District of Indiana, in the city of Indianapelis, Marion county, Indiana, and at the conclusion of the public offer the property will be sold at the best proposal or bid, whether public or private, acceptable to said courts. Each proposal or bid for the purchase of all the property as an entirety must be accompanied by a certified check for ten thousand dollars (\$10,000), and each proposal or bid for the purchase of a separate plant or parcel of said property shall be accompanied by a certified check for 10 per centum of the amount of such proposal or bid, which checks shall be forfeited if the purchaser falls to perform his proposal or bid, in case it be accepted.

The right to reject any and all proposals or bids is reserved, and the sale shall in all things be subject to confirmation by the court. The property shall pass to the purchaser discharged from all liens, which are transferred to the fund arising from the sale. The purchase money must be paid one half in cash upon confirmation of the sale, one-third on or before nine months from such date, notes to be given for the deferred payments, bearing interest at the rate of 6 months from such date, notes to be given for the de-

thereof. The contracts entered into by the receiver for the sale and delivery of hub-blocks, spokes, rim-strips and other products, and for the purchase of supp ies and materials, shall be assumed by the purchaser, who shall give security, to be approved by the court, to fully perf rm such contracts. In case the property is sold in parcels such contracts will be apportioned by the receiver among the several plants.

SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of look. ing after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a news paper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

- Was reduced to -

1,200.00

No other method of securing a Republican victory at the polls is so certain as

the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.

The Sunday Journal

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of
